EDUCATION

2010–2013, University of Reading;
First Class, BA (Hons) Graphic Communication

2005–2010, Manshead Upper School, Caddington;
4 A-levels at A–B grade and 13 GCSE's at A*–C grade

ABOUT ME

I thrive when working in teams with other people around me but also enjoy working on projects individually. I am extremely organised and love focusing on tiny details to bring a project to life. I am always looking for ways to learn more about design, to improve my design process and optimise my workflow.

My time studying at the University of Reading taught me valuable design skills across a range of disciplines. I also learned the importance of the theory and history of design and feel privileged to have been taught by world-class experts. The enthusiasm of my lecturers and tutors inspired in me a passion for good design and a desire to continue to learn more.

In my spare time I can usually be found in the midst of a DIY project, playing tennis or badminton, or with my nose in a good book.

SKILLS

I am fluent in Adobe Creative Suite software and am confident in using Microsoft Office, Glyphs, HTML and CSS.

THE BEST BITS

I enjoy designing things to make people smile and have plenty of experience of working with real clients; through agency work, freelance projects and also through a real jobs scheme that formed part of my degree.
